TABLE OF CONTENTS

To Volume 69, September–December, 1971

ABE, M. and J. TOMIZAWA, Chromosome replication in *Escherichia coli* K12 mutant affected in the process of DNA initiation 1–15

BISCHOFF, WILLIAM L. and JOHN C. LUCCHESI, Genetic organization in *Drosophila melanogaster:* Complementation and fine structure analysis of the deep orange locus 453–466

BRADFORD, G. E., Growth and reproduction in mice selected for rapid body weight gain 499–512

BUDNIK, MYRIAM, S. KOREF-SANTIBANEZ and D. BRNCIC, Rate of development and inversion polymorphism in *Drosophila pavani* 227–233

BURNS, J. A. and D. U. GERSTEL, Inhibition of chromosome breakage and of mega-chromosomes by intact genomes in Nicotiana 211–220

CARLSON, PETER S., Mutant selection in *Tetrahymena pyriformis* 261–265

CHAO, S. E. and J. G. SCANDALIOS, Alpha-amylase of maize: Differential allelic expression at the *Amy-1* gene locus, and some physicochemical properties of the isozymes 47–61

CHINNICI, JOSEPH P., Modification of recombination frequency in Drosophila. I. Selection for increased and decreased crossing over 71–83

CHINNICI, JOSEPH P., Modification of recombination frequency in Drosophila. II. The polygenic control of crossing over 85–96

CHOVNICK, ARTHUR, GRAEME H. BALLANTYNE and DAVID G. HOLM, Studies on gene conversion and its relationship to linked exchange in *Drosophila melanogaster* 179–209

COCKERHAM, C. CLARK, Higher order probability functions of identity of alleles by descent 235–246

CURTIS, C. F. and A. S. ROBINSON, Computer simulation of the use of double translocations for pest control 97–113

DARCEY, K. M., E. G. BUSS, S. E. BLOOM and M. W. OLSEN, A cytological study of early cell populations in developing parthenogenetic blastodiscs of the turkey 479–489

DAVIES, R. W. and P. L. WORKMAN, The genetic relationship of two quantitative characters in *Drosophila melanogaster*: I. Responses to selection and whole chromosome analysis 353–361

DAVIES, R. W., The genetic relationship of two quantitative characters in *Drosophila melanogaster*. II. Location of the effects 363–375

DRAKE, JOHN W., Some irregularities in the nomenclature of bacteriophage T4 DNA polymerase amber mutants 273

EICHER, EVA M., The identification of the chromosome bearing linkage Group XII in the mouse 267–271

ELLISON, J. R. and H. J. BARR, Chromosome variation within *Drosophila simulans* detected by quinacrine staining 119–122

ENOMOTO, MASATOSHI, Genetic analyses of nonmotile double mutants in *Salmonella typhimurium:* A new mapping method by abortive transduction 145–161

EYLAND, E. A., Moran's Island migration model 399–403

GIELOW, LINDA, MICHAEL LARGEN and ELLIS ENGLESBERG, Initiator constitutive mutants of the L-arabinose operon *(OIBAD)* of *Escherichia coli* B/r 289–302

GOLOMB, H. M., G. F. BAHR and D. S. BORGAONKAR, Analysis of human chromosomal variants by quantitative electron microscopy. I. Group D chromosome with giant satellites 123–128

GRELL, RHODA F., Heat-induced exchange in the fourth chromosome of diploid females of *Drosophila melanogaster* 523–527

GUTZ, HERBERT, Site specific induction of gene conversion in *Schizosaccharomyces pombe* 317–337

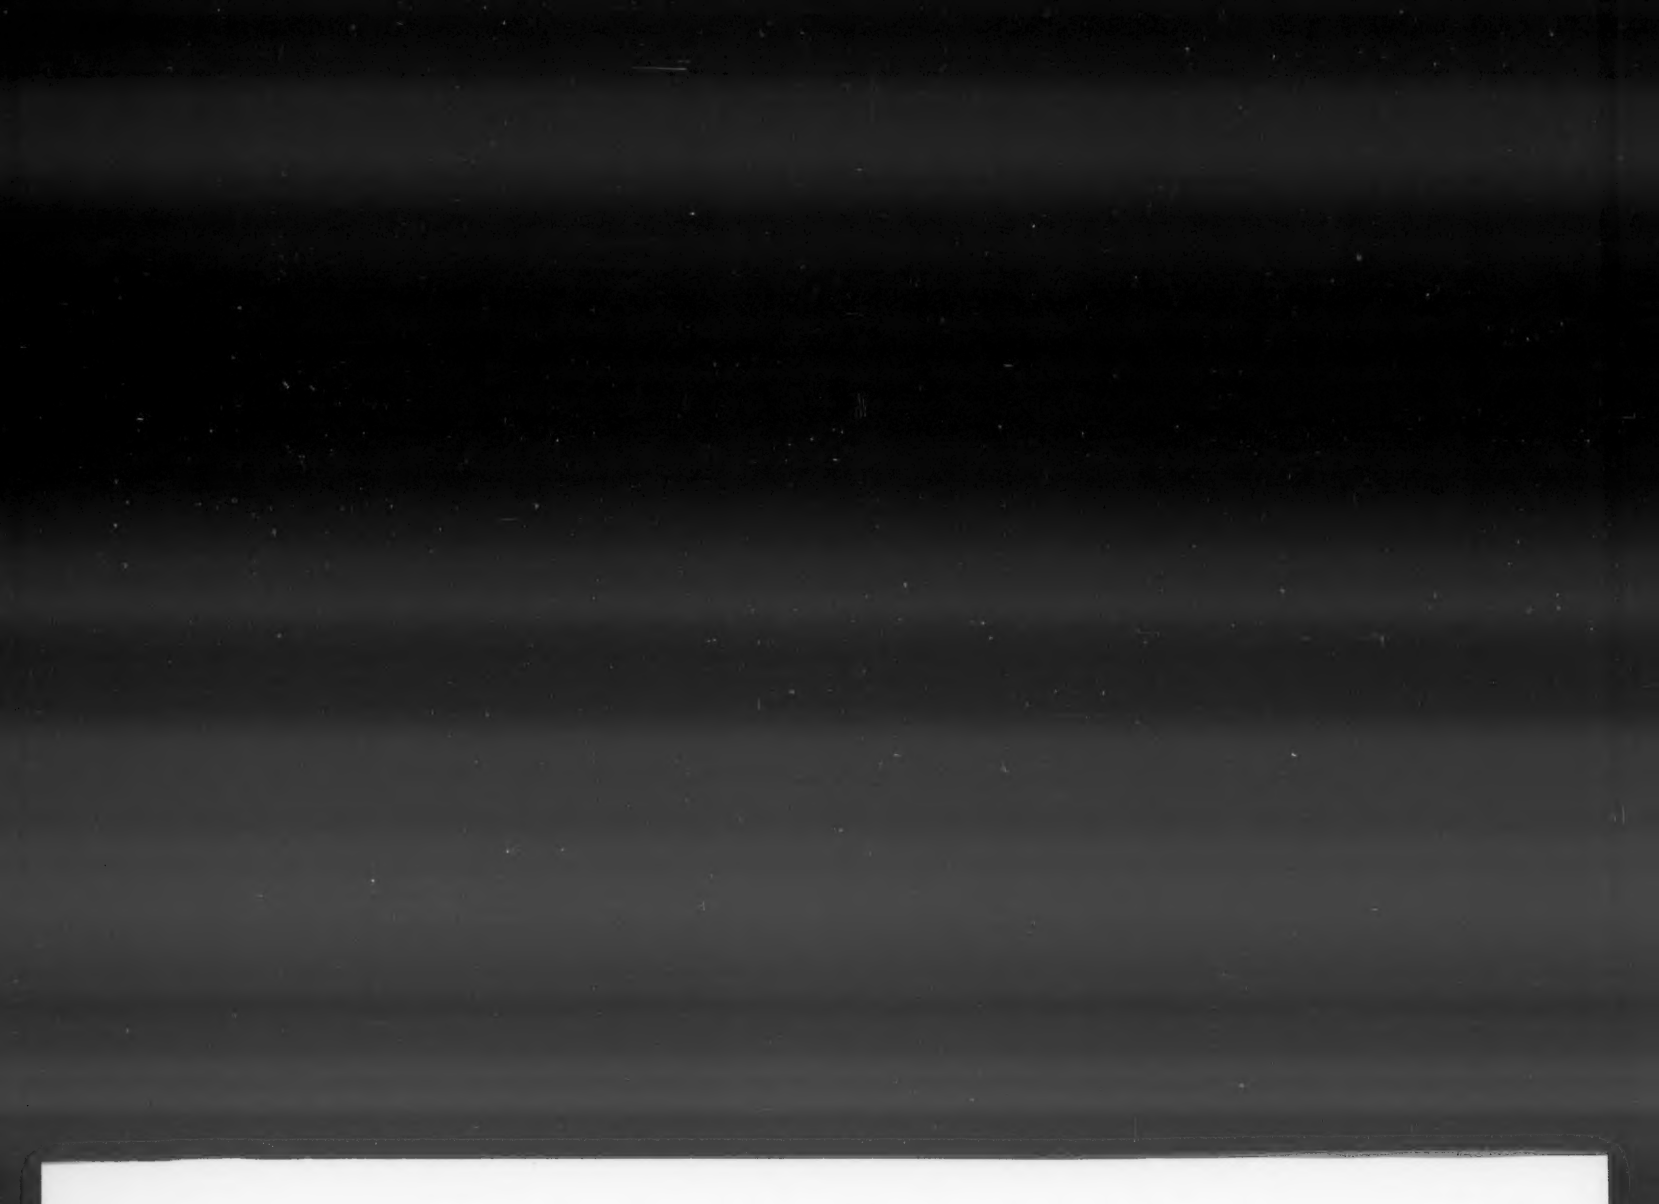
KOURI, R. E., D. A. MILLER, O. J. MILLER, V. G. DEV, M. S. GREWAL and J. J. HUTTON, Identification by quinacrine fluorescence of the chromosome carrying mouse linkage group I in the Cattanach translocation 129–132

KUHN, DAVID T., Aberrant sex ratios among the tumorous-head strains of *Drosophila melanogaster* 467–478

KUNG, CHING, Genic mutants with altered system of excitation in *Paramecium aurelia*. II. Mutagenesis, screening and genetic analysis of the mutants 29–45

LAKOVAARA, SEPPO and ANSSI SAURA, Genetic variation in natural populations of *Drosophila obscura* 377–384

LEVINGS, C. S. III and C. W. STUBER, A maize gene controlling silk browning in response to wounding 491–498

LIM, S. M. and A. L. HOOKER, Southern corn leaf blight: Genetic control of pathogenicity and toxin production in race T and race O of *Cochliobolus heterostrophus* 115–117


MIDDLETON, RICHARD B., The Genetic Homology of *Salmonella typhimurium* and *Escherichia coli* 303–315
MUKAI, TERUMI and TSUNEYUKI YAMAZAKI, The genetic structure of natural populations of *Drosophila melanogaster*. X. Developmental time and viability 385–398
NASIM, ANWAR and A. P. JAMES, Replicating instabilities in yeast: Evidence from single cell isolation 513–516
NESBITT, MURIEL and UTA FRANCKE, Analysis of the *T(3;?)6 Ca* and *T(14;17)264 Ca* translocations in the mouse by quinacrine mustard staining 517–522
OHTA, TOMOKO and MOTOO KIMURA, Behavior of neutral mutants influenced by associated overdominant loci in finite populations 247–260
PEREZ-SALAS, S. and L. EHRMAN, Mechanisms of male sterility in hybrids of the *Drosophila paulistorum* group 63–70
PRAKASH, SATYA and R. C. LEWONTIN, A molecular approach to the study of genic heterozygosity in natural populations. V. Further direct evidence of coadaptation in inversions of Drosophila 405–408
SHERWIN, STEPHEN A. and BRUCE C. CARLTON, Suppression of tryptophan mutants in *Bacillus subtilis* by apparent nonsense suppressors 133–143
STEFFENSEN, DALE M. and D. E. WIMBER, Localization of tRNA genes in the salivary chromosomes of Drosophila by RNA:DNA hybridization 163–178
TOH-E, AKIO and TATSUO ISHIKAWA, Genetic control of synthesis of repressible phosphatases in *Neurospora crassa* 339–351
VODKIN, MICHAEL and FRANK R. H. KATTERMAN, Divergence of ribosomal RNA sequences within Angiospermae 435–451
VON BORSTEL, R. C., KATHERINE T. CAIN and C. M. STEINBERG, Inheritance of spontaneous mutability in yeast 17–27
WADA, CHIEKO and TAKASHI YURA, Phenethyl alcohol resistance in *Escherichia coli*. II. Replication of F factor in the resistant strain C600 275–287
YANOFSKY, CHARLES, VIRGINIA HORN, MIRIAM BONNER and SUSAN STASIOWSKI, Polarity and enzyme functions in mutants of the first three genes of the tryptophan operon of *Escherichia coli* 409–433
YOON, C. H., Use of linkage and cytological markers to identify mice doubly affected by "staggerer" and "reeler" conditions 221–225
